

## Message from Editor in Chief of Thai Journal of Gastroenterology 2009-2010

---

### *Dear Members*

Thai Journal of Gastroenterology (TJG), launched more than ten years ago, provides a major venue for publication of a quality research, including gastrointestinal field, pancreaticohepatobiliary area, endoscopic view, radiologic and pathophysiologic aspects. We are delighted that TJG has made such a good start and has attracted the attention of members, as indicated by submissions and the web statistics. This has only been possible due to the large number of high quality submissions and the tremendous efforts of the reviewers. We are very grateful to all the authors who have submitted such high quality work to the journal and the reviewers for dealing with the manuscripts so quickly.

We look forward to receiving your submissions and to receiving feedback. We hope that the quality of our journal will improve with time and will be cited by the major scientific index systems. Finally, we have to say many thanks to our sponsors who support and make this journal possible.

**Duangporn Thong-Ngam, M.D.**

*The Editor in Chief*
