

**Message from
Editor in Chief of
Thai Journal of Gastroenterology 2007-2016**

Dear Members

The second issues of Thai Journal of Gastroenterology 2015, we have a very welcome positive feedback from our readers. We have the interesting cases of ERCP in endoscopic corner. “Imaging of The Colon” is the topic of X-ray corner. Moreover, there is a review article of “Prevention of The Progression of Chronic Pancreatitis”. We also have 6 original articles from our recently graduated fellows.

I would like to inform that TJG is now approved and on TCI (Thai Journal Citation Index Centre) ranking through December, 31, 2019. The editorial board still works hard to achieve the difficult task and we have to say many thanks to our team who support and make this journal continuous.

Please send our sincerely congratulations for GI fellows from passing the board examination and please keep in touch with the Gastroenterology Association of Thailand.

Hope you a position that brings good friends, good health, good luck and good things!

Duangporn Werawatganon, M.D.

The Editor in Chief
