

**Message from
Editor in Chief of
Thai Journal of Gastroenterology 2007-2016**

Dear Members,

Thai Journal of Gastroenterology is a journal devoted to reporting original investigations in the gastroenterology and hepatopancreaticobiliary area, including research in the basic sciences, effectiveness of diagnostic or therapeutic techniques and studies relating to the epidemiology, radiology, pathology, endoscopy or case report. We have managed to publish the Journal regularly 3 issues annually for the past 13 years and hope that it will continue on its production quality and regularity. Since it is available for free access online.

We hope to be able to bring about gradual changes in the near future for a successful indexation (TCI) and more importantly for the improvement of the journal. I would like to express my gratitude and thankfulness to those who have supported us for many years and to those who are going to be with us in our journey of bringing the journal to another height.

Happy Songkran Day.

Prof. Duangporn Werawatganon, M.D.

The Editor in Chief
